REPUBLIC SPECIAL

Output a Week Longer.

REPUBLIC SPECIAL.

Joplin, Mo., Dec. 6.—The shut-down of the last two weeks has resulted in reducing the stock on hand in the bins of the producers by about 3,000 tons, still leaving an accumulation of some 4,500 tons. At the meeting of producers this week it was decided to extend the policy of restricting the output at least one week longer. The general sentiment was in favor of two weeks, but specific action was taken only on one week.

The movement to curtail the output is having the beneficial effect of lessening like reserve stock, but the purchasing agents assert that no amount of restriction will advance the price of zinc ore until there are hopes of something better. With the United States, entirely out of the market, the smelter men assert that the United States, entirely out of the market, the smelter men assert that there is no prospect of an immediate ise in the price of the ore.

It has been charged by some that the curtailment was a voluntary movement on the part of the producers to secure higher prices. Of course, such an end was hoped for, but there are three phases to the study and the class, owning in the best mines, are shut down because the owners have as large stocks on hand as they care to carry until a sale can be effected. A certain other exists that are faitly pressed. The patient prices, and they prefer to wait for the advance rather than cut out the ore restricted in the court and while the margin of the couple of the ore.

The high state are considered in the couple of the couple

bazaar, which was the most successful, with possibly one exception, ever given in St. Louis.

The members of the committee are elated over the success of the enterprise, the patronage having exceeded their greatest expectations.

L. will require a fund of \$300,000 to complete the new asylum, which St. Ann's Association will erect at Page avenue and Union boulevard. The charity bazaar is only the beginning of a movement for the collection of a big fund.
